

WCSB12 – Sampling for a Sustainable World

DOI: 10.62178/sst.004.011

We are pleased to announce that WCSB12, originally scheduled to take place in summer 2026 in Cornwall (UK), has been relocated to Burlington House, Piccadilly, London on 25–27th November 2026.

The conference will be organised by the Geological Society of London.

WCSB12 aims to bring together the diverse international sampling community to present and debate concepts and ideas for a standardised approach to sampling embodied in the Theory of Sampling (TOS).

The opportunity to meet, exchange ideas, and share practical experiences will be a significant benefit for attendees. The Conference will provide understanding and insights for practitioners, academics, manufacturers and engineering firms aiming to achieve representative sampling through TOS.

We look forward to meeting in the new location to explore and discuss the new frontiers of sampling and blending!

WCSB12

25th to 27th November 2026

Geological Society of London, Burlington House, Piccadilly, London, UK.
